Communication & Collaboration

Overview:

The **Communication & Collaboration** module in the HRMS Employee Panel is designed to promote smooth and structured communication across teams, departments, and management. It bridges the gap between employees and HR while encouraging active participation, feedback, and transparency within the organization.

🔹 **Key Functions:**

1. Internal Chat and Messaging System

- **One-on-One Chats:** Secure, real-time messaging between employees.
- **Group Chats:** Department-based or project-specific groups for faster coordination.
- **Message History:** Access to past chats for reference and record.
- **File Sharing:** Attach and share documents, images, and links instantly within chats.

2. Company-wide Announcements and Notifications

- **Bulletin Board:** Displays all official announcements such as policy updates, holidays, events, etc.
- **Push Notifications:** Instant alerts sent to desktop or mobile devices to ensure no important message is missed.
- **Targeted Messaging:** Segment-based communication (e.g., only Sales team or Remote staff) for relevant messaging.

3. Surveys, Suggestion Box, and Feedback Mechanisms

- **Pulse Surveys:** Quick, periodic surveys to check employee satisfaction, stress level, and engagement.
- **Anonymous Feedback:** Employees can submit their suggestions or concerns confidentially.
- **Suggestion Box:** Ongoing open forum to propose new ideas, vote on others' suggestions, and see which ideas get implemented.
- **Feedback Forms:** Structured forms to review company initiatives, trainings, events, or policies.
