🗂️ Document Management Module – Features & Functionalities

The Document Management system in the Employee Panel of the HRMS is a secure, centralized platform enabling seamless handling of all essential HR documents. It simplifies access, uploading, and acknowledgment of key documents while ensuring compliance and traceability.

✅ Core Functionalities

1. **Centralized Access to HR Documents**
    - View and download essential HR documents including:
        - Appointment Letters
        - Employment Contracts
        - NDAs (Non-Disclosure Agreements)
        - Company Policies (e.g., Leave, Travel, Code of Conduct)
        - Promotion or Increment Letters
    - Smart categorization by document type or department
2. **Employee Document Uploads**
    - Upload personal or statutory documents for HR reference, such as:
        - PAN Card, Aadhar Card
        - Educational Certificates
        - Experience Letters
        - Medical Certificates or Fitness Proof
    - HR gets real-time notifications for new uploads
3. **Digital Signature & Acknowledgment Integration**
    - Secure e-signature capability on offer letters, NDAs, or updates
    - Acknowledgment tracking for policy compliance
    - Legal validation with audit trail (timestamp, IP, user ID)
4. **Automated Document Reminders**

- Alerts for document expiry or renewal (e.g., ID proof, licenses)
- Reminder emails/SMS for pending document acknowledgments

5. **Downloadable Templates & Forms**
    - HR-provided templates (e.g., reimbursement forms, leave application formats)
    - Easy-to-fill, upload-ready formats for standard use cases
6. **Role-Based Access Control (RBAC)**
    - Access permissions based on role (employee, HR, manager)
    - Confidentiality maintained for sensitive HR documents
