🧾 HRMS Employee Panel – Expense & Reimbursement Module

The **Expense & Reimbursement** feature under the HRMS Employee Panel is designed to streamline financial workflows by allowing employees to easily manage and submit their work-related expenses. This module promotes transparency, accountability, and efficiency in handling reimbursements.

🔧 Key Functions & Features

---

1. Submit Expense Claims

- Employees can initiate reimbursement requests for eligible expenses such as travel, food, accommodation, communication, or miscellaneous costs.
- Upload supporting documents like receipts, invoices, or bills in PDF/JPEG/PNG format.
- Tag each expense under predefined categories (e.g., Travel, Meals, Accommodation).
- Add custom remarks to explain specific charges.

---

2. Real-Time Reimbursement Tracking

- Live status updates available at each stage of the reimbursement process: **Submitted → Under Review → Approved/Rejected → Processed**
- Notifications via email and in-app alerts for each status update.
- Option to view historical records of all past reimbursement claims and their statuses.

---

3. Multi-Currency Support

- Supports expense entries in multiple currencies, ideal for global teams or international travel.
- Automated currency conversion to the employee's home currency based on real-time exchange rates.

- Finance teams can process reimbursements in local currency as per company policy.

---

4. Department-Wise Approval Workflow

- Customizable workflows to route expense claims through the correct approval chain.
- Department Heads or Team Leads receive notifications for pending approvals.
- Automatic escalation of unapproved claims after a predefined time period.

---

5. Policy Compliance & Automation

- Built-in validation rules aligned with company reimbursement policies.
- Auto-flagging of non-compliant or duplicate claims.
- Automated limits on claim amounts based on employee role/grade.

---

6. Reports & Audit Logs

- Generate monthly/quarterly reports of individual or department-level reimbursements.
- Full audit trail for each claim: who submitted, who reviewed, who approved.
- Downloadable summary reports for tax or accounting purposes.

🧩 **Benefits**

- Faster processing time and improved employee satisfaction.
- Reduced manual errors and fraud with automated checks.
- Ensures compliance with internal and tax regulations.
