Settings & Preferences

The **Settings & Preferences** section within the Employee Panel of the HRMS platform empowers employees with control over their work environment, communication preferences, and accessibility needs. This section is designed to enhance user personalization, increase engagement, and support diverse workforce requirements.

---

1. Manage Notification Preferences

Stay in control of how and when you receive important updates from the organization.

Key Features:

- **Email Alerts:** Enable or disable email notifications for attendance, approvals, announcements, and payroll updates.
- **SMS Notifications:** Manage SMS alerts for urgent updates like shift changes, leave approvals, or emergency communications.
- **Push Notifications:** Configure in-app or mobile push notifications for real-time updates.
- **Category-wise Preference:** Choose notification settings by category (HR, Payroll, Leave, Events).
- **Do Not Disturb Mode:** Set specific hours to mute non-essential alerts.

---

2. Set Working Hours, Shift Preferences, and Remote Work Status

Define your availability and preferences to help managers plan and schedule efficiently.

Key Features:

- **Preferred Working Hours:** Set your ideal start and end time for regular working days.
- **Shift Preferences:** Select your preferred shift (morning, evening, night), with optional auto-allocation settings.
- **Remote Work Status:**
    - Mark availability for work-from-home days.
    - Set hybrid/in-office schedules.

    - Update real-time remote status (available/busy/offline).
- **Geo-tagging for Remote Workers:** Optional GPS tagging for remote check-ins and location compliance.

---

3. Multi-language and Accessibility Settings

Create an inclusive experience tailored to individual employee needs.

Key Features:

- **Language Selection:** Choose from multiple supported languages for the portal interface.
- **Text Size & Display Settings:** Adjust font size, contrast mode, and brightness preferences for comfortable viewing.
- **Screen Reader Compatibility:** Enable accessibility support for visually impaired users.
- **Keyboard Navigation Mode:** Activate keyboard-only navigation for improved accessibility.
- **Color Blind Mode:** Toggle visual settings optimized for different types of color vision deficiencies.

Benefits:

- Personalizes user experience for higher satisfaction.
- Improves productivity through efficient schedule alignment.
- Enhances compliance with labor policies and remote work tracking.
- Promotes inclusivity and accessibility for all employees.

Example Interface Reference (Visual Template Idea):

Function	Option Available	Customization Level	Notification
Working Hours	9 AM - 6 PM / Custom	High	Manager Approval Required
Preferred Language	English / Hindi / Regional	Medium	Instant Update
Accessibility	High Contrast Mode / Font Size	Full	N/A
Remote Work Status	WFH / Hybrid / In-Office Schedule	Daily / Weekly	Auto-Update
Email Alerts for Leave	On/Off	Per Category	Configurable
