
🔧 Key Functions Under Profile Management:

1. View & Update Personal Information

- Access complete personal profile details including name, date of birth, gender, marital status, and nationality.
- Edit and update contact details such as:
    - Permanent and current address
    - Phone number (mobile and alternate)
    - Official and personal email IDs

2. Emergency Contact Management

- Add or update emergency contact information.
- Define the relationship, phone number, and address of emergency contacts.
- Option to mark a primary emergency contact.

3. Document Upload & Management

- Upload and store important documents such as:
    - Aadhar Card, PAN Card, Passport
    - Educational certificates
    - Professional certifications
    - Updated resumes
    - Experience letters or joining documents
- System auto-validates document format and alerts for expiry (if applicable).

4. Employment History & Role Tracking

- View complete employment lifecycle within the organization:
    - Date of joining
    - Past roles and departments

    - Promotions or designations held
    - Transfers across branches or locations
    - Reporting manager history
- Generate a downloadable employment history report.

5. Profile Picture Upload

- Upload or update a professional profile picture to be used across internal tools and portals.

6. HR Approval Workflow

- Changes made by the employee (such as contact updates or document uploads) are sent for HR/admin approval before final submission.

7. Alerts and Notifications

- Receive reminders and alerts for:
    - Missing profile details
    - Document expiry or renewal (e.g., ID proof, visa)
    - Profile completion status

📋 Sample Template Reference (UI-Based)

Below is a mockup-style section layout reference for your UI/UX or web team:

| 👤 My Profile |
