## Our Services

At **HrVista Soft Solutions**, we are committed to delivering robust, scalable, and innovative software and IT solutions tailored to empower businesses across every sector. With deep expertise and a client-first approach, we offer a wide range of services that enhance digital transformation, streamline operations, and boost business growth.

---

### 1. HRMS Software (Human Resource Management System)

We develop intelligent HRMS solutions to automate and simplify HR processes:

- Employee data management
- Payroll & salary processing
- Attendance & leave tracking
- Performance evaluation
- Recruitment & onboarding
- Employee self-service portal

Our HRMS platform is secure, cloud-based, and mobile-compatible to meet the needs of modern HR departments.

---

### 2. Accounting Software

Our customizable accounting software helps businesses maintain financial accuracy:

- Invoicing & billing
- Ledger management
- GST compliance
- Expense tracking
- Budgeting and forecasting
- Financial reporting

We offer integrations with banks, CRMs, and third-party tools to ensure seamless financial operations.

---

**3. ERP Software (Enterprise Resource Planning)**

Our ERP solutions connect and automate your core business functions:

- Supply chain & inventory management
- Finance and accounting
- Sales and procurement
- HR and payroll
- Manufacturing process integration
- Real-time analytics and dashboards

Suitable for SMEs to large enterprises, our ERP software supports cloud and on-premise deployment.

---

**4. CRM Software (Customer Relationship Management)**

We offer robust CRM solutions to improve customer engagement and sales:

- Lead & opportunity management
- Client communication history
- Sales pipeline tracking
- Automated follow-ups
- Customer support ticketing
- Marketing automation integration

Tailored to your sales processes to maximize conversions and customer satisfaction.

---

**5. Cloud Storage Solutions**

Secure, scalable, and accessible cloud storage for enterprises:

- Encrypted file storage
- Auto-backups & disaster recovery

- Role-based access control
- Cloud migration services
- Integration with Google Drive, Dropbox, OneDrive, etc.

Perfect for businesses aiming to enhance data availability and security.

---

**6. Web Development**

We build user-centric, SEO-optimized, and responsive websites:

- Corporate websites
- E-commerce platforms
- Custom web applications
- CMS-based sites (WordPress, Joomla)
- Front-end & back-end development
- API integration and automation

From design to deployment, we ensure stunning UI/UX and top performance.

---

**7. App Development (All Platforms)**

Cross-platform and native mobile app development:

- Android, iOS, and Hybrid apps
- UI/UX design & prototyping
- API integration & third-party services
- Real-time push notifications
- App store submission & maintenance

Built to perform flawlessly and engage users across devices.

---

**8. Software Development**

Custom software tailored to your business needs:

- Desktop applications
- SaaS products
- Automation tools
- Legacy system modernization
- Agile development methodology
- QA testing & ongoing support

From concept to code, we bring your ideas to life with precision and innovation.

---

**9. Stock Market Software**

Real-time trading and investment platforms:

- Portfolio management
- Live market feeds & charts
- Broker integration
- Risk management tools
- Alerts and analytics

Trusted by traders and financial institutions for speed and security.

---

**10. Digital Signature Integration**

Enhance document security and workflow efficiency:

- eSignature solutions for contracts & approvals
- Integration with CRM, HRMS, ERP
- Legally compliant & encrypted
- Multi-party signing workflows
- Audit trail and document verification

Boosts trust, compliance, and digital collaboration.

---

**11. School Management Software**

All-in-one software for educational institutions:

- Student admission & records
- Fee management & reports
- Attendance tracking
- Online exams & results
- Parent-teacher communication portal
- LMS and digital classrooms

Empowers schools to operate efficiently and transparently.

---

**12. Hospital Management Software**

Digitize and streamline healthcare operations:

- Patient registration & history
- Appointment scheduling
- Billing & pharmacy management
- Electronic medical records (EMR)
- Lab report management
- Doctor & staff scheduling

Designed to improve healthcare delivery and operational control.

---

**13. Office Management Software**

Centralized tools to manage daily office operations:

- Task & project tracking
- Internal communication
- Meeting & calendar integration
- Document storage & collaboration

- Employee time tracking

Ideal for SMEs and large corporations seeking operational efficiency.

---

**14. Restaurant Management Software**

Complete solution for F&B businesses:

- Table reservations & order management
- Kitchen display system (KDS)
- POS & billing integration
- Menu management
- Customer feedback system
- Inventory & supply tracking

Suitable for cafes, quick-service restaurants, and fine dining.

---

**15. Hotel Management Software**

End-to-end property and guest management:

- Room booking & occupancy tracking
- Check-in/check-out automation
- Front desk & housekeeping coordination
- Guest profiles & loyalty programs
- Multi-property management
- Online travel agency (OTA) integration

Helps hoteliers enhance guest experiences and operational efficiency.

---

**16. And Many More...**

We also specialize in:

- E-commerce solutions

- Inventory & warehouse management
- Logistics software
- Legal firm solutions
- Custom dashboards & reporting systems
- API & system integrations
- Technology consultation and IT support

---
